JavaScript

Javascript Introduction	1
JavaScript importance	
Javascript Engine	
Variable declaration	
Output from JavaScript	
Alert, Prompt, Confirm	
Identifier, operators, seperators, Keywords	
Function declaration	
Javascript-placement	
Operators	2
Arithmetic Operators	
Comparison Iperators	
Logical Operators	
Bitwise Operators	
Assignment Operators	
Miscellaneous Operators	
Looping Statements, Controll Statements	3
For-Loop	
While-Loop	
Do-While Loop	
If-Else	
Switch-Case	
Standards	4
Keywords	
ECMA	
Built in Objects	5
String	
Array	
Date	
Math	
Window	
Location	
Screen	
Navigator	
History	
Document	
RegExp	
Function	
Object	
Constructor	
XMLHttpRequest	
Promise	
Global Reference	6
Infinity	
decodeURI()	
decodeURIComponent()	
encodeURI()	
encodeURIComponent()	

JavaScript

escape()DEPRICATED
eval()
isFinite()
isNaN()
Number()
parseFloat()
parseInt()
String()
unescape()DEPRICATED

Js-Rules

7

Variable Scope
Hoisting
Use Strict
Recursion
Clouser

OOps(ES-6)

8

Creating Constructor
Class
Object creation
Add Methods to Objects
Inheritance
Polymorphism
Encapsulation
namespace
